SUMMARY

Android developer who builds user-focused apps in Kotlin and Jetpack Compose, with Firebase, Room and Firestore for data, and automates manual spreadsheet work with Python. Completed the 12-course Meta Android Developer Professional Certificate and is pursuing an M.Sc. in Computational Science & Applications at Banaras Hindu University, building on a B.Sc. in Physics and a BCA. Brings an analytical, problem-solving approach to mobile development. Seeking an Android developer role or internship.

TECHNICAL SKILLS

Languages: Kotlin, Java, Python, C, C++
Android: Jetpack Compose, Navigation, Android Studio, App architecture
Data and Backend: Firebase Firestore, Cloud Storage, Room, SQL, REST APIs, Ktor
Tools: Git, GitHub, Flask, OpenPyXL, Excel VBA
Concepts: Object-oriented programming, data structures and algorithms (in progress), UX/UI design principles
Domain: Physics, scientific computing, machine learning basics

PROJECTS

Eccian2.0 | *Kotlin, Jetpack Compose, Firebase* github.com/Jayati-Rai/Eccian2.0

- Developed an Android campus app in Kotlin and Jetpack Compose that consolidates academic resources, news, notifications and student tools into a single platform.
- Organized content into study notes, previous-year questions, news and notifications, and subject-wise resources.
- Integrated Firebase for backend services.

Shelf Organizer | *Kotlin, Jetpack Compose, Room, SQL, Firestore* github.com/Jayati-Rai/Shelf_Organizer

- Engineered an Android inventory app in Kotlin and Jetpack Compose for managing items across multiple stores, with structured item records, search and filtering, and inventory tracking.
- Combined Room (SQL) for persistent local storage with Firestore for cloud sync.

Automated Vetan Bill Generator | *Python, OpenPyXL, Excel VBA, Flask* github.com/Jayati-Rai/pdf-to-jsl

- Automated the preparation of salary grant sheets for aided schools in Uttar Pradesh using Python and OpenPyXL on Excel templates.
- Preserved formulas, merged cells, formatting and macro-enabled workbooks (Excel VBA) so generated sheets keep the original template intact.
- Reduced preparation time from 15–40 minutes to under 30 seconds per sheet (estimate documented in the repository).

EDUCATION

Banaras Hindu University, Varanasi Aug 2025 – Present
M.Sc. Computational Science & Applications

Ewing Christian College Nov 2021 – Jun 2024
B.Sc. Physics

Manipal University Jaipur (Online) Nov 2021 – Jun 2024
Bachelor of Computer Applications (BCA)

CERTIFICATIONS

Meta Android Developer Professional Certificate, Meta (Coursera) Oct 2026
12-course program covering Android development, Kotlin, UX/UI design, data, React, React Native, an Android capstone project and coding interview preparation.
Courses completed: Principles of UX/UI Design (Aug 2024); Create the User Interface in Android Studio (Oct 2024); Advanced Programming in Kotlin (Dec 2024); Working with Data in Android (Dec 2024); Coding Interview Preparation (Oct 2026); Android App Capstone (Oct 2026).
Credential: coursera.org/verify/professional-cert/CVJ8XI1Q37QZ
